Gentlemen:

Re: Codisposal Request Approval

LOG # 350

Based on all the information and the certifications contained in your request for codisposal of nonhazardous industrial waste received on June 24, 1986 the following approvals are hereby granted by the Minnesota Pollution Control Agency (MPCA):

1. MPCA approval is hereby granted to Irathane Systems, Inc. to dispose of cured polyurethane 5-gallon pail liners at the Hibbing Sanitary Landfill, SW-161.
2. MPCA approval is hereby granted to Hibbing SLF, SW-161 located at Section 23, T57N, R21W, St. Louis County, Minnesota to accept for disposal Irathane System, Inc's cured polyurethane 5-gallon pail liners.

MPCA approval is subject to the following conditions:

1. Disposal shall be limited to: cured polyurethane 5-gallon pail liners in a quantity of 400 liners per year as identified on the Codisposal Request Form dated December 30, 1985.
2. Disposal of the cured polyurethane 5-gallon pail liners shall be made with mixed municipal refuse at the regular working face.
3. Disposal of this waste in the landfill shall be conducted in accordance with all applicable laws and MPCA rules and the terms of the permit.
